Accelerated Benefit Riders

Provides the option of receiving a partial or full accelerated life insurance benefit if the insured experiences a qualifying medical condition.

How do these riders work?

The Accelerated Benefit Riders (ABRs) are offered for no additional premium. However, the accelerated benefit payment will be less than the amount of death benefit requested because it is reduced by an amount calculated based on American National's evaluation of the insured's future expected mortality at the time the benefit is exercised as well as an administrative fee of up to \$500 assessed when the benefits are elected. The accelerated death benefit is an unrestricted cash benefit. See acceleration amount limitations below.

Three separate riders may provide for the payment of an accelerated benefit which cover the following conditions:

- **Accelerated Benefit Rider for Terminal Illness:** For use if an eligible insured is diagnosed with an illness or chronic condition that is expected to result in death within 12 to 24 months, depending on state definitions.
- **Accelerated Benefit Rider for Chronic Illness:** For use if an eligible insured is unable to perform two out of six activities of daily living (bathing, continence, dressing, eating, toileting, or transferring) or has a severe cognitive impairment.
- **Accelerated Benefit Rider for Critical Illness:** For use if an eligible insured experiences a critical illness described in the rider after the issue date. Covered critical illnesses may be found in the rider forms.

California Residents:

- A supplemental application is required to determine eligibility for the Critical and Chronic Illness Riders.
- The Chronic and Critical Illness Riders are not available for applicants age 65 and older.
- Chronic illness is not available in conjunction with term coverage whether it is the base policy or a rider.

Additional New York Resident Availability/Limitations:

- The Critical Illness Rider is not available.
- A supplemental application is required to determine eligibility for the Chronic Rider.
- For chronic illness, New York requires a Licensed Health Care Practitioner's certification that the condition requires continuous care for the remainder of the insured's life.
- The maximum benefit that may be paid to you in a calendar year under the Chronic Illness Rider may not exceed the annualized per diem amount that is in effect for long term care services. Please see 26 USC 7702B(d)(4) to determine the amount currently in effect for the current year.

Minimum policy Death Benefit to Obtain Riders:

- Terminal Illness: \$25,000
- Chronic & Critical Illness: \$50,000

Maximum Death Benefit Eligible for Acceleration

- \$2,000,000 (issue ages 0 through 65)
- \$1,000,000 (issue ages 66 or older)

Policies exceeding the maximum acceleration amount will still contain the Accelerated Benefit Riders; however, the owner will only be able to accelerate up to the maximum death benefit eligible for acceleration. For example, on a \$4,000,000 policy (where eligible), the owner will only be able to accelerate \$2,000,000 if issue age 65 or under at time of issue.

There is no minimum partial acceleration request; however, the partial acceleration will not be allowed if the policy's face amount would be reduced below the minimum required for the product. The accelerated benefit may be paid in a lump sum or applied to any settlement option under the contract that does not involve life contingent payments.

Not everyone that applies for acceleration will be eligible to receive accelerated benefits.

Eligible Accelerations:

If the primary insured suffers a qualifying medical condition, the base policy and any additional riders on the primary insured are eligible for acceleration. Likewise, if a spouse or other insured party suffers a qualifying condition, their specific rider benefits will also be eligible

for acceleration. The Children’s Term Rider is not eligible for acceleration.

Upon payment of the accelerated benefit to the owner, the policy or rider(s) providing the eligible death benefit will be treated as if the insured has died if full acceleration is elected. In the event of a partial accelerated benefit, the policy or rider will be treated as if there has been a decrease to the face amount.

The American National Story

Chartered on March 17, 1905, by American National Insurance Company's founder, W. L. Moody Jr., the company began operations with \$100,000 of capital and \$20,000 surplus. Following a conservative investment philosophy, Mr. Moody believed that profits should finance future growth, so the company did not pay dividends to investors in those early years. Mr. Moody envisioned a company that would flourish for centuries. His conservative business approach created a unique corporate culture that remains the heart of the company today.

American National Life Insurance Company of New York, a wholly-owned subsidiary of American National Insurance Company, was incorporated under the laws of New York in October 2009 and is only licensed to business in New York.

This culture has helped American National persevere through wars, hurricanes, economic volatility, extraordinary technological advancements, evolving products, and the changing needs of contract holders and agents. American National has existed for over 110 years and will continue to manage its business respecting the conservative principles of its founder, driven by its corporate vision to be a provider of financial services for current and future generations.

This brochure provides a brief summary of various riders and benefits offered by American National Insurance Company and American National Life Insurance Company of New York. The terms and conditions in the rider will control. Please read the rider carefully. All riders may not be available in all states. Riders may vary by state.

Accelerated Benefit Riders Important Information

Policy Form Series: ABR14-TM; ABR14-CH; ABR14-CT; ABR14-TM(NY); ABR14-CH(NY). Forms will vary by state and may not be available in all states. Have your agent refer to rider forms for a complete list of illnesses and definitions. Some states may limit the definition of terminal illness to conditions that are expected to result in death within 12 months. The riders are offered at no additional premium. However, the accelerated payment will be less than the requested death benefit because it will be reduced by an actuarial discount and an administrative fee of up to \$500. The amount of the reduction is primarily dependent on American National's determination of the insured's life expectancy at the time of election. Outstanding policy Loans will reduce the amount of the benefit payment. The accelerated death benefit is an unrestricted cash payment. The Chronic and Terminal rider are intended to receive favorable tax treatment under 101(g) of the IRC. Receipt of a benefit could be a taxable event. You should consult a tax advisor regarding the tax status of any benefit paid under these riders. Receipt of Accelerated Benefits may affect your eligibility for Medicaid, supplemental security income, or other governmental benefits or entitlements. Before accelerating any benefit you should consult an advisor to determine the impact on your eligibility. Accelerated Benefit Riders are not replacements for Long Term Care Insurance. **This is a life insurance benefit that also gives you the option to accelerate some or all of the death benefit in the event that you meet the criteria for a qualifying event described in the policy. This policy or certificate does not provide long-term care insurance subject to California long-term care insurance law. The policy or certificate is not a California Partnership for Long-Term Care program policy. This policy or certificate is not a Medicare supplement policy.** Accelerated benefit riders ("ABR") and long-term care insurance ("LTCI") provide different types of benefits. An ABR allows the insured to gain access to a portion of the life insurance policy's death benefit while living and may be used for any purpose. LTCI provides reimbursement for necessary care received due to the inability to perform activities of daily living or cognitive impairment. Coverage may include reimbursement for the cost of a nursing home, assisted living, home health care, homemaker services, adult daycare, hospice services or respite care for the primary caretaker. The benefits may be conditioned on certain requirements or meeting an elimination period or limited by type of service, the number of days or a maximum dollar limit. Benefits under some ABRs and all LTCI are conditioned upon the insured not being able to perform two or more of the activities of daily living or being cognitively impaired. California: See form 10741-CM for a more detailed comparison of benefits provided by an ABR and LTCI.

New York Chronic Illness Rider: This product is a life insurance policy that accelerates the death benefit on account of chronic illness and is not a health insurance policy providing long term care insurance subject to the minimum requirements of New York Law, does not qualify for the New York State Long Term Care Partnership program, and is not a Medicare supplement policy.
